Columbia Gas Transmission Corporation; Notice of Application

January 5, 1996.

Take notice that on December 29, 1995, Columbia Gas Transmission Corporation (Columbia), PO Box 1273, 1700 MacCorkle Avenue SE., Charleston, West Virginia 26031, filed in an abbreviated application pursuant to Sections 7(b) and 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing Columbia to construct and operate certain natural gas replacement facilities and permission to abandon the facilities being replaced.

Columbia seeks authorization to construct and operate approximately 11.7 miles of 20-inch pipeline and appurtenances and authorization for the retirement of approximately 11.7 miles of 16-inch pipeline and appurtenances designated as Columbia's Line 1740 in Gilmer County, West Virginia.

The replacement with larger diameter pipe for continuity purposes will result in an increase in capacity of 21,800 Dth/d over a relatively short distance of Line 1740 which Columbia will post for short-term release in accordance with its tariff. Columbia states that the deteriorated pipeline requires replacement in order to assure continued service to its customers and the integrity of the line. Columbia does not request authorization for any new or additional service. The estimated cost of the proposed construction is \$11,350,100 and will be financed with funds generated from internal sources.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 25, 1996, file with the Federal Energy Regulatory Commission Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceedings. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and Commission's Rules of Practice

and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Columbia to appear or be represented at the hearing.

Lois D. Cashell,

Secretary.
